Dear Mr. Brown,

Once again your firm has responded both courteously and professionally to come to the aid of both my business and myself. This time it was Ms. Emily Kasik and those working as her assistants who have performed such a stellar job. Had it not been for Ms. Kasik's diligent and professional negotiating, my world at present would be upside down. Her patience and respectful approach in dealing with my situation is so much appreciated – I feel a mere "Thank You" falls significantly short of showing my true appreciation. I know the future is uncertain as to the outcome of the offers made to the government; however, I know if I have any chance whatsoever of some relief and a new life ahead, it will be because of Ms. Kasik.

Please commend her, and your entire staff, for a job well done. From time to time I run into folks who need the help that your office extends and I will be sure to highly recommend your office, your staff, and your way of doing business to anyone I can.

Regards,
